# Christmas Tree                    traditional

1. Begin with a square, white side up. Precrease along the diagonal with a mountain fold.

2. Valley fold the side edges towards the center crease.
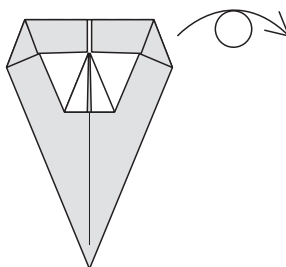

3. Turn over.

4. Valley fold the side edges towards the center crease.

5. Valley fold the top flap down. You can experiment with the distance to affect the height of the trunk.
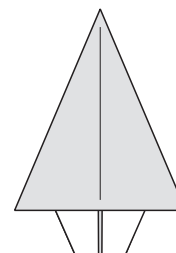

6. Valley fold the flap up to meet the colored section.

7. Turn over.

8. Valley fold the flap up at the widest point.

9. Completed Christmas Tree.
